Dear Dick:

Please accept this heartfelt note of thank you for a stellar job done at Conway. All of us were under pressure, yet being at the site 1-2 times per day, I did not see signs of stress, even on those 2 full work Saturdays. You have a wonderful crew, the subs are top notch also. I salute Bob La Plante in particular, I don't know how he can juggle so many job sites at the same time, and at the same time be accessible to my calls. He's a keeper.

Thanks also for the yucca plant, adds to the décor of the office.

If I can reciprocate in any way please let me know.

Sincerely,

Vladimir Kalas, M.D.
