**PROJECT**  
**Stepping Stones I**  
**Day Care-Elevator Installation**  
DDA No. 02-040

Dear Mr. Zandri,

As the Architectural Representative for Dembling + Dembling Architects, P.C. for the Stepping Stones Day Care I - Elevator Installation project, I wanted to take this time to commend Zandri Construction, especially Dave Canfield and Daryl Vaulkenburgh, for the fine service we received. It's rare these days when services exceed our expectations, but your team has accomplished just that; and our expectations were high. They were very well prepared, addressed the issues in a proactive concise manner, and thereby diffused any potential problems. We realize that they made personal sacrifices to accomplish a well-run project. Throughout this project we were treated with cheerfulness and respect even in the most stressful hours of the project.

We were fortunate that the Commission On Economic Opportunity selected your organization as the General Contractor and we look forward to working with you in the future.

Respectfully submitted,

**Dennis Rigosu**
